

PART 0: Wallet setups

1. Extension: Download and install the browser extension.

This browser extension does one thing: it manages accounts and allows the signing of transactions with those accounts. It does not inject providers for use by dapps at this early point, nor does it perform wallet functions, e.g send funds.

2. Click **Download for Chrome.**

 **Download for Chrome**

 **Download for Firefox**

7. The Polkadot-JS extension icon is now pinned onto your navigation bar!

2. Wallet: Create a wallet from the browser extension.

The image shows a Chrome browser window with the Polkadot-JS extension page on the Chrome Web Store. The address bar shows the URL: chrome.google.com/webstore/detail/polkadot%7Bjs%7D-extension/mop. The extension is titled "polkadot{.js} extension" and is offered by "polkadot{.js}". It has a 4.5-star rating from 23 reviews and over 100,000 users. The extension is categorized under "Developer Tools".

1. Click on the **Polkadot-JS extension icon** to reveal the Accounts window.

2. Read the **notes** carefully.

3. Click **Understood [...]** to proceed.

The welcome window displays the following text:

Welcome

Before we start, just a couple of notes regarding use:

- We do not send any clicks, pageviews or events to a central server
- We do not use any trackers or analytics
- We don't collect keys, addresses or any information - your information never leaves this machine

... we are not in the information collection business (even anonymized).

Understood, let me continue

GUIDE TO POLKADOT-JS – Part 0: Wallet setups

Version 1.1

The screenshot shows the Chrome Web Store page for the 'polkadot{.js} extension'. The page header includes the Chrome Web Store logo and navigation links. The extension's details are displayed, including its icon, name, developer, and user ratings. Below the extension details, there are recommendations for other extensions like 'WAExpresso - WhatsApp...', 'Message deleter for Slack', and 'Instagram With...'. An 'Add Account' modal is overlaid on the right side of the page. The modal has a title bar with the Polkadot logo and the text 'Add Account'. Inside the modal, a blue box contains the instruction '4. Click + to create your first account.' A green arrow points to a plus sign (+) in the center of a circular, colorful, abstract background. Below this, the text reads: 'You currently don't have any accounts. Create your first account to get started.'

GUIDE TO POLKADOT-JS – Part 0: Wallet setups

Version 1.1

The image shows a Chrome browser window with the Chrome Web Store page for the 'polkadot{.js} extension'. The page displays the extension's logo, name, and a 5-star rating. A yellow callout box is overlaid on the page, containing the text: **NEVER store your seed in a phone/tablet/laptop/PC!** Write your seed in a notebook/ sketchbook or diary and keep it private.

Overlaid on the right side of the browser window is the 'Create an account' dialog. It shows a generated 12-word mnemonic seed: 'promote fetch hamster sweet enough broccoli total bounce rival repeat above warfare'. A green arrow points to a checkbox labeled 'I have saved my mnemonic seed safely.', which is currently unchecked. Below the checkbox is a 'Next step' button.

5. Make sure you **note down your seed phrase neatly** and tick the box.
